

Progressive Pediatrics, Inc. has implemented a new billing policy with Go Card Connect, the leading Healthcare Payments Network. Now, we will securely save your credit or debit card on file to cover any balance due after your insurance benefits are applied. This policy will help you to simplify how you pay medical bills.

This new billing policy eliminates the hassle of writing out a paper check and mailing in a payment. We do all the work for you. Plus, you will not receive a paper statement in the mail. This eliminates the chance of your personal information being viewed or stolen by others.

Here's how it works:

1. We securely save your credit or debit card before or during your visit.
2. We work with your health plan to determine your payment amount for the visit.
3. Before your card is charged, we email you the amount you will be charged.
4. We process the payment for you automatically and email you the receipt.

Please bring your preferred payment method with you to your next office visit. For more information, visit:
